INDEX QUALITY SPECIFICATION

Brazilian nature based avoidance voluntary carbon credits rated BBB by BeZero.

CRITERIA FOR INCLUSION

Tradable product inputs comprise:

Quality BBB
Location Brazil
Technology Nature Avoidance
Vintage Any
Registries VCR, GS, ACR, CAR

ASSESSMENT TIMES

TIME	DETAILS
1630	London Close

CALCULATION APPROACH

TRADE DATA APPROACH	Y/N
Priority to reported and concluded transactions	Y
Sole-sourced data from trading principals accepted	N
Inter-affiliate data accepted as valid	N

Daily assessments are computed from trade data received before the 16:30 close.

The value of each project is assessed using a trade data hierarchy, whereby trades take priority in producing the assessment, with the average of trades being used if more than one deal were reported. Otherwise, bids and offers prevailing at 16:30 London time are considered. A $0.10 /mtCO2e bid/ask spread is applied to the assessment. The projects are then placed into their respective baskets, before the median value of those projects is used to assess the final index value.

In the absence of trade data, the price is held steady day-on-day. Projects with high co-benefits may be normalised before inclusion in the final assessment.

ALIAS DEFINITION

ALIAS	TIME	PERIOD TYPE	PERIOD
VCBBBNATBR	1630	Prompt	1

FACTSHEET INFORMATION

Factsheet version	2.0
