INDEX QUALITY SPECIFICATION

Traded gas packages refer to dry, pipeline-quality natural gas that meets the specific Btu content and compositional standards required by each pipeline. Gas is treated and processed prior to injection to ensure it complies with these requirements, removing the need to adjust for differences in quality across various sources.

CRITERIA FOR INCLUSION

Index calculation inputs comprise trades, bids, offers, market valuations, spreads to closest-trending secondary benchmark

- Occurring and received between 0600-1300 (CT)
- For Next Day delivery
