## INDEX QUALITY SPECIFICATION

The Tradable Instruments for Global Renewables (TIGRs) registry is a globally recognized standard that certifies the renewable origin of electricity, operating across various international markets. The TIGRs registry is managed by APX, Inc. in collaboration with local authorities and project developers to ensure compliance with regional regulations.
- Each TIGR represents 1 megawatt-hour (MWh) of electricity from renewable sources.
- TIGRs are unbundled instruments traded separately from the physical electricity.
